How often do your Level 1-3 ELLs interact with complex, grade level texts?

Research

“The research shows that while the complexity of reading demands for college, career, and citizenship have held steady or risen over the past half century, the complexity of texts students are exposed to has steadily decreased in that same interval. In order to address this gap, the CCSS emphasize increasing the complexity of texts students read as a key element in improving reading comprehension.” -Common Core State Standards

“Complex texts provide school-age learners reliable access to this language, and interacting with such texts allows them to discover how academic language works. Herein lies a major problem for English learners and language minority students. One of the biggest roadblocks to learning is that they never get a chance to work with complex text” -Lily Wong Fillmore
